SUPREME SYSTEMS CELEBRATES 35 YEARS OF SUCCESS

Top New York City-Based Courier and Trucking Solutions Provider Commemorates Anniversary Supporting Logistics Needs of Companies Coast to Coast

FOR IMMEDIATE RELEASE: September 14, 2022

NEW YORK, NY – [Supreme Systems](#), a leading courier and trucking solutions provider in North America, marked its 35th anniversary today.

"We're both honored and humbled to be able to celebrate 35 years of success," states [Sean Bennett](#), President of Supreme Systems. "My father set the standard with how Supreme Systems should operate, the top-notch service we show our clients, and how to invest in our employees to further drive our success."

Supreme Systems was founded by Eric Bennett in 1987 and has since grown into a premier on demand courier and trucking provider with more than five million deliveries made to date, reaching an estimated 30 million customers coast to coast.

"The logistics industry has evolved significantly since Supreme Systems was first founded in the 80s," Bennett continued. "We've navigated through unprecedented challenges like 9/11 and more recently, the Covid-19 pandemic, and have stood strong as a pillar of the New York City On Demand Courier industry. We've kept a pulse on this community and are proud of the resurrection currently underway."

Supreme Systems remained operational during the shelter-in-place lockdowns at the onset of the Covid crisis as it was deemed an essential business servicing thousands of clients across all industries.

Supreme Systems is consistently evolving to better meet the needs of its client base. Since its foundation, Supreme Systems has expanded to Supreme Building Messengers, Supreme

Business Solutions, Supreme Fleet Outsourcing and Supreme Final Mile, each of which serves a specific market helping them meet their business needs.

Today, Supreme Systems serves clients in fashion, publishing, legal, financial, construction, architectural, public relations, advertising, media, retail, e-commerce, mail, and grocery sectors.
